

Tank Care Buddy — Website

Changelog — June 11, 2026 · June 11, 2026 — Session B

Date	June 11, 2026	Repo	tank-care-buddy-site
Commit(s)	cfc3764	Domain	tankcarebuddy.com

What Changed

Logo mark — switch to inline SVG fish, remove artifact

Removed the PNG logo-mark assets and switched to an inline SVG fish icon in shared.js. The corner bracket border artifact (visible in user screenshot) was resolved by removing the wrapper element. Logo mark scaled to match header text height.

Files Touched

File	Change
shared.js	LOGO_SVG switched to inline SVG fish path, wrapper removed
style.css	Logo mark CSS simplified, artifact-causing rules removed

Why It Changed

User screenshot showed a corner bracket border artifact around the header logo mark. The PNG-swap approach was replaced with an inline SVG to eliminate the artifact. Note: this session used the fish navigation icon shape rather than the true brand mark — corrected in Session 11D.

Licensing Impact

None.	No third-party image licenses involved. All content is original or derived from proprietary Tank Care Buddy assets.

Deferred Items

- App Store link placeholder — pending until app is live

- Privacy policy effective date — update before launch

Recommended Next Step

Next

Verify the corner bracket artifact is gone and the logo scales to text height.
