

Website Update

June 11, 2026 • Session 11e

OVERVIEW

Two targeted updates to the Tank Care Buddy marketing site.

No redesign. No changes to sections outside the hero and new social block.

CHANGE 1 — HERO HEADLINE

What changed:

- Old: "Tank care, taken care of." (italic, comma, period)
- New: "Tank Care taken care of" (clean 2-line, no comma, no period)

Why:

- More confident, cleaner read — no trailing punctuation on the display headline.
- Line 1 is plain weight (Tank Care), line 2 uses the existing teal italic style.
- Intentional 2-line break preserved on all screen sizes.

Files touched:

- index.html — `<h1 class='hero-title'>` updated

CHANGE 2 — SOCIAL SECTION

What was added:

- New `<section id='social'>` placed between 'Who It's For' and the CTA banner.
- Section heading: "Check us out on social"
- Supporting line: "Follow along for app updates, fish tips, and behind-the-scenes progress."
- Two social cards — TikTok @tankcarebuddy (primary) and TikTok @popumbrella (secondary).
- Pop Umbrella card is intentionally quiet (dashed border, reduced opacity).
- Arrow icon on each card animates on hover (lift + teal color).
- Footnote: "More platforms coming soon." — easy to remove or update.

Design decisions:

- Cards use existing `--color-surface` + `--color-border` tokens — no new colors introduced.
- Layout: single-column, max-width 480px, centered — mobile-first.
- Pop Umbrella is present but clearly secondary — TCB brand is not diluted.
- Handles and links can be updated in one place (`href` + `.social-card-handle` text).
- Adding Instagram/YouTube later = copy-paste a `.social-card` block, no CSS changes needed.

Files touched:

- index.html — new social section HTML added
- style.css — `.social-section`, `.social-card`, `.social-card--secondary` CSS added at end of file

COMMIT
