

Website Update

June 11, 2026 • Session 11e

OVERVIEW

Two targeted updates to the Tank Care Buddy marketing site. No redesign. No changes to sections outside the hero and new social block.

CHANGE 1 — HERO HEADLINE

What changed:

- Old: "Tank care, taken care of." — italic, comma, period
- New: "Tank Care / taken care of" — clean 2-line, no comma, no period

Why:

- More confident, cleaner display headline — no trailing punctuation.
- Line 1 is plain weight (Tank Care), line 2 uses existing teal italic style.
- Intentional 2-line break preserved on all screen sizes.

Files touched:

- index.html — h1.hero-title updated

CHANGE 2 — SOCIAL SECTION

What was added:

- New section#social placed between 'Who It's For' and the CTA banner.
- Section heading: "Check us out on social"
- Body copy: "Follow along for app updates, fish tips, and behind-the-scenes progress."
- Two social cards — TikTok @tankcarebuddy (primary) and @popumbrella (secondary).
- Pop Umbrella card is intentionally quiet (dashed border, reduced opacity).
- Arrow icon animates on hover. Footnote: 'More platforms coming soon.'

Design decisions:

- Cards use existing design tokens — no new colors introduced.
- Single-column layout, max-width 480px, centered — mobile-first.
- Pop Umbrella present but secondary — TCB brand is not diluted.
- Adding more platforms = copy one .social-card block, no CSS changes needed.

Files touched:

- index.html — social section HTML added
- style.css — .social-section, .social-card styles appended

COMMIT

Repository: jtsmith7234-rgb/tank-care-buddy-site

Branch: main

Commit hash: ea721f9

Message: feat: update hero headline + add social section

DEFERRED / NOT DONE

- TikTok @tankcarebuddy handle — update href once account is confirmed live.
- Capacitor packaging, App Store prep, support email — deferred per brief.
- Privacy policy date and App Store link — deferred per brief.

RECOMMENDED NEXT STEP

- Confirm TikTok handle, update social card href.
- Optional: add Instagram card using the same .social-card pattern when ready.
